One of the scientists came up with the bright idea of training a monkey to do the job. Derek's death led Schiffman to a simple conclusion that continues to guide his work today: "Cancer sucks.

This time, the German shepherd was diagnosed with lymphoma, a cancer of white blood cells. What's the difference between a girl elephant and a boy elephant? Except it hasn't worked out that way: Schiffman is the director of the pediatric cancer genetics clinic at Intermountain Primary Children's Medical Center and the Huntsman Cancer Institute at the University of Utah. A study published in 2014 showed that women, just like mice, prefer the smell of men. Being next to you is in some ways like sleeping with an elephant.
