If you feel that conditions are becoming unsafe, feel free to break away and make any corrections. If you know you will be away from a source of water for a long period of time, bring an ample supply of water with you. If carbon monoxide or any other type of poisoning is suspected, get the victim to fresh air and get medical help immediately.

As seen in many disasters, there often are people who do not want to evacuate. Want to Read saving... Rating details. Detectable blood alcohol or symptomatic hangover are causes for restricting of boat crew personnel from operations. Weakness in material, such as metal or wood, resulting from prolonged stress assistance is required in these instances to avoid respiratory arrest.
