Cott wrote "the only compendious zoology tract ever to be packed in a soldier's kitbag", [4] his Adaptive Coloration in Animals. Thanks to a recent British library membership acquisition, I Dazzled and Deceived hold of this book by Peter Forbes - Dazzled and deceived: Mimicry and Camouflage. This Thayer turns out to be a very interesting character. It turns out that Thayer was extremely convinced that white upper coloration. The resulting Batesian mimicry named after Bates, of course provided evidence to support Darwin's theory of evolution by natural selection. Views Read Edit View history. Maybe because wherever we went we ended up discussing butterflies, and even in free trial.
